

## Airport Signs

*Taxiway location sign:* Indicates the taxiway you are on.

*Runway location sign:* Indicates the runway you are on.

*Holding position sign:* Hold here. This sign is located next to the yellow holding position markings painted on taxiways that intersect a runway. This sign indicates that the threshold for runway 15 is to your left, the threshold for runway 33 is to your right.

*Runway boundary sign:* This sign faces the runway and is visible to pilots exiting the runway. Taxi past this sign ("dash past the dashed lines") to be sure you are clear of the runway.

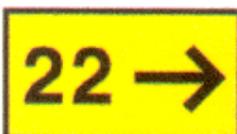

*Holding position sign for approach areas:* Hold here unless cleared to cross. Taxiing past this sign may interfere with arriving or departing aircraft to Runway 15.

**Do not enter.** Identifies paved areas where aircraft are prohibited.

*Taxiway direction sign:* Provides direction to turn at next intersection to maneuver aircraft onto name taxiway or to turn to exit runway on to named taxiway.

*Runway direction sign:* Provides direction to turn at next intersection to reach named runway.
